Date: 19/9

Chair:

Participants: Albin Söderberg, Adam Andersson, Anders Magnusson, Max Fransson

Objectives (5 min)

- Resolve any issues preventing the team to continue.
- Short clear descriptions.

Seminar, Preparation for supervisor meeting

Reports (15 min) from previous meeting

- Each group member reports outcome of assigned issues, see also 'outcomes and assignments'.

Max: Create preliminary sketches of the User Interface for the application - A first draft of the GUI has been completed

Anders: Start working on design model - A good base of the design model is finished

Adam: Finish the Domain model - The domain model is finished

Albin: Organize Trello - Trello board is now colour sorted and more organized

Discussion items (35 min)

- Discuss the identified issues, and possibly new or more general issues (very short notes and/or keywords).

Seminar preparation

Tasks

Testable code

Design model, Exercise polymorfism

Outcomes and assignments (5 min)

- Outcomes from discussion items. Write down what's decided and why it was decided. Sync with other documentation (add terms to wordbook).

Weight-based exercises, rep-based exercises and cardio should all extend the same class so that Workout can keep them in one list.

- (re)Assign to each group member which issues to solve.

Max: Add updates to the created paper prototype GUI. Add visual components and some placeholder functions to a prototype application

Anders: Work on adding more to the design model

Adam: Add module tabs and way to create simple exercise and add to exercise list + a test verifying it

Albin: Start creating classes and add more tasks to Trello

Wrap up

- Write down any unresolved issues for next meeting.
- Decide a time and location for next meeting.

Next meeting: Monday 24/9
