Week 2:

Meeting Agenda

Group: TrainingTracker (16)
Date: 12/9
Chair:
Participants: Albin Söderberg, Adam Andersson, Anders Magnusson, Max Fransson

Objectives (5 min)

- Resolve any issues preventing the team to continue.

Write down more user stories, divide them into tasks.

Make a prototype domain model.

Reports (15 min) from previous meeting

- Each group member reports outcome of assigned issues, see also 'outcomes and
  assignments'.

Android studio works for all group members. The group has begun to setup the project in
Android studio, and there has been an initial commit made to the git repository on Github.

Discussion items (35 min)

- Discuss the identified issues, and possibly new or more general issues (very
  short notes and/or keywords).

User stories, tasks

Domain model

Outcomes and assignments (5 min)

- Outcomes from discussion items. Write down what's decided and why it was
  decided. Sync with other documentation (add terms to wordbook).
- (re)Assign to each group member which issues to solve.

The group has devised, from last week's assignment, a preliminary domain model.

Continue to divide user stories into tasks and continue to perfect the domain model

Wrap up

- Write down any unresolved issues for next meeting.
- Decide a time and location for next meeting.

Continue work on domain model and add more tasks. Next meeting: Monday 17/9
